P.O. Box- 60200

Meru, Kenya

RE: APPLICATION FOR SOFTWARE DYNAMICS INTERNSHIP PROGRAM

Dear Hiring Manager,

I am writing to express my interest in the Software Dynamics Internship Program in Meru, Kenya. I am currently completing my Bachelor of Science in Computer Science at the University of Kabianga and expect to graduate in November 2026. I am eager to apply my technical knowledge, problem-solving abilities, and passion for software development in a professional environment where I can continue learning and growing.

I am particularly interested in this opportunity because it offers exposure to enterprise technologies such as C#, Microsoft Dynamics 365, Azure, and Power Platform. I am highly motivated to build a career in enterprise software development and Microsoft consulting, and I believe this internship would provide an excellent foundation for developing both my technical and professional skills.

During my studies, I have gained experience in programming, web development, databases, and software engineering. I also developed a web-based application that analyzes exam responses to detect AI-generated and copied content using Python and Flask. Through this project, I strengthened my skills in system development, debugging, problem-solving, and working with data-driven applications.

In addition to technical skills, I am a fast learner, adaptable, and able to work effectively both independently and within a team. I value professionalism, continuous learning, and attention to detail, and I am confident that I can contribute positively while learning from experienced developers and mentors at Software Dynamics.

I would greatly appreciate the opportunity to further discuss how my academic background, technical skills, and enthusiasm align with your internship program. Thank you for considering my application. I look forward to hearing from you.

Yours faithfully,

BURTONE HEEDS
